

## Children's Programs

Many of Collier County's Parks offer a range of camps and after school programs for children to play, connect and discover.

Various locations offer VPK to give children a head start by preparing them for school, with a focus on enhancing their pre-reading, pre-math, language and social skills.

Volunteer opportunities within these programs could include, tutoring, helping in a classroom or after school program, playing games with the children, reading to children, teacher's assistant, administrative functions. **These opportunities may require special training or certificates.**

For a list of locations providing VPK, Camps and After School Programs click [here](#).

Please list the park name under 'desired site location' on your Parks & Recreation volunteer application.
