

COLLIER COUNTY PARKS & RECREATION

RECYCLING

Recycling is the key to managing solid waste.
The more recyclables you place in the recycle can,
the more space is saved in landfills.

Recycle:

- Metal: Aluminum drink cans
- Glass: Bottles
- Plastic: Bottles

Help Us Recycle in Our Parks!
Look for this sign when you are
visiting our parks.

The Collier County Parks & Recreation Division invites you to help us protect and preserve our environment by recycling all glass, metal and plastic containers.

An aspect of maintaining our parks is the proper use of waste and recycling receptacle on our park grounds. Park users have many opportunities to recycle in Collier County Parks.

Indoor Recycling Program

- All community centers have indoor recycling areas where park users can recycle metal, glass, plastic and paper

Outdoor Recycling Program

- Outside park users can recycle at beaches, swimming pools, athletic fields, playgrounds, and large picnic areas
